Hash Value of Source Code (MD5) : **85cd90a86033681c0a54abe37373e35e**

## HOSTING PERMISSION:

I. Site may be considered safe for hosting with read permission only for general public.

### RECOMMENDATIONS:

- I. Web Server Audit certificate, web server and OS level hardening need to be in place for the production server before making the application live.
- II. Website audit should be done at least once a year or when there is any change in the application.
- III. No new web pages are to be added without proper security audit.
- IV. Server side issue should be taken care by hosting provider.
- V. Secure Sockets Layer (SSL) should be implemented on the main hosting URL (including sub-folders).
